November, 2017

Dear OLV Parents:

Our teachers and faculty are dedicated to provide the best spiritual and academic formation of your child(ren). From time to time we receive requests for students that have not yet been baptized or may have transferred to our school and have not yet been prepared for the sacraments of Penance and Communion.

Our sacramental preparations normally consider that our students would have been baptized before school age. However I know there are circumstances that may not have made that possible. Our students begin their formal sacramental program in the first grade. They continue in the winter of Second Grade with the celebration of their first confession. Later in the spring, they would be prepared for their reception of Holy Communion also in the second grade. Likewise, there are often family circumstances that might prevent this. I would like to get a clear picture of our needs as a parish family. I need your assistance to accomplish this. Please complete the information below. I ask that you please respond even if your child(ren) has/have already received these sacraments. Thank you for your assistance.

With my prayers,

Fr. Ryan
