

## **Philosophy**

Catholic Education makes our faith come alive through instruction in the unique setting of a school whose model teacher is Jesus Christ. The educational program of Our Lady of Victories School provides for the development of the spiritual, intellectual, psychosocial, physical, and emotional growth of the students through the dedicated commitment of the parents.

Teaching respect for authority in the home, school, and society creates the atmosphere of self-disciplined learning and emphasizes our personal obligation of freedom with responsibility.
